NEW

Focus

Oxygen concentrator

The lightest concentrator by a long way can be worn simply on the belt. Ideal, if weight and discreet looks are critical to the success of the therapy. With two batteries the user is mobile, a battery belt extends freedom of movement. When the Focus is operated by mains power, the batteries are charged. Weighing just 0.8 kg, the Focus is smaller and lighter than all conventional concentrators, making for almost unlimited mobility, and thus greater quality of life!
