

ALOVA[®] VISCO ELASTIC FOAM MATTRESS

Monoblock, Multi-support with heel contour

INTEGRATED HEEL CONTOUR

- **Performance:** reduction of pressure values thanks to the different hardnesses relative to each part of the body.
- **Efficiency:** improvement of the vascular flows thanks to the heel contour.
- **Safety:** risk of crossed contamination reduced thanks to a technically proven protection.
- **Comfort:** follows body movements.

Monoblok mattress with heel contour

Visco elastic foam mattress overlay $\geq 75 \text{ kg/m}^3$

Foam base High Resilience (HR)

Integrated heel contour

Multi support

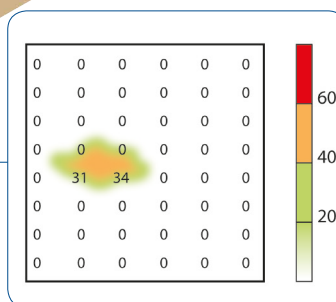

Soft Firm Medium

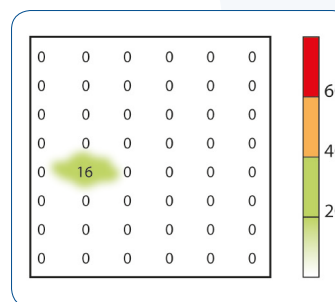

- Optimal reduction of pressures on high risk areas thanks to a heel contour associated to the ALOVA multi support mattress.

Example: heel pressure distribution for a patient of 1.76 m and 70 Kg (11 st) (Unit: mm of Hg).

Mattress WITHOUT heel contour.

Monoblok multi-support WITH heel mattress.

PALLET BOX

- Practical** the mattress is ready to be installed.
- Ecological:** reduction of waste
- Ergonomics:** integrated handles on packaging.
- Packaging:** 5 units compressed and rolled per pallet.

COMPRESSED & ROLLED
